*the world partly becomes  
comes to be  
how it is imagined*

Gregory Bateson

*The Universe by definition is everything  
and includes us experiencing and thinking about it.  
The universes are the models of the Universe  
that we construct to explain our observations and experiences.*

Edward Harrison

*If we could start with Universe, we would automatically avoid  
leaving out any strategically critical variables.*

R. Buckminster Fuller
